

▶ SENATOR DAINES: KEEP MONTANA COVERED

As patient advocates, doctors, hospitals, caregivers, and direct service providers, we stand united in our opposition to the AHCA and any attempts to weaken Medicaid and affordable access to health care.

We urge Senator Steve Daines to reject any bill that caps or block grants federal funds for Medicaid, effectively ends Montana’s bipartisan Medicaid expansion, reduces health care coverage for millions of families, charges seniors a lot more for their health coverage, or reduces cost-sharing assistance for those with low or middle incomes who purchase plans in the marketplace. Cuts to Medicaid will put at risk Medicaid expansion, Healthy Montana Kids, and traditional Medicaid that helps seniors, individuals with disabilities, and children with special needs.

Montana needs Congress to focus on finding ways to make health care more affordable and accessible for all Montanans.
